

**Import gas-liquid pressure boost system makes sure the stable pressure and energy saving.
PLC control, touch screen simple operation.**

Stepless speed regulation of frequency converter.
Spray nozzle space automatic-adjusting according to the spacer width.

Preheat available.

Non butyl automatic alarm system.

BEM01/BEM02

Automatic Butyl Extruder

Custom sizes according to user's needs

	BEM01/BEM02
Power supply	380V/50Hz
Total power	4.0kW
Extruding speed	35m/min
Extruding temperature	110~160℃
Air pressure	0.5~0.8MPa
Extruding pressure	10~15MPa
Extruding nozzle range	6~30mm
Overall dimension	3000×650×1000mm
